

# **Mitchel Troy Household Waste Recycling Centre**

## **Changes from 1<sup>st</sup> June 2019**

### **1. Introduction of permits**

From 1<sup>st</sup> June 2019 residents will need to display a valid permit in the front windscreen of their car in order to enter and use the site. All residents will receive a permit in the post before 1<sup>st</sup> June.

Non-residents will be refused entry. They should dispose of their waste within the authority in which they reside and to which they pay their council tax.

Newport residents should use the site provided at: **Docks Way, Maesglas, Newport, Gwent NP20 2NS**

Herefordshire residents should use the sites provided at: **Station Approach, Ross-on-Wye, HR9 7AQ or Chapel Road Industrial Estate, Rotherwas, Hereford, HR2 6LD**

Forest of Dean residents should use the site provided at: **Oak Quarry HRC, B4226, Broadwell, Coleford GL16 7EG**

Blaenau Gwent residents should use the site provided at: **New Vale Household Waste Recycling Centre, Waun-y-Pound Industrial Estate, Ebbw Vale, NP23 6PL**

Powys residents should use the site provided at: **Ffrwdgrech Industrial Est, Brecon, Powys, LD3 8LA**

Torfaen residents should use the site provided at: **Panteg Way, New Inn, Pontypool NP4 0LS**

### **2. Sites will remain closed on the days outlined below.**

From 1<sup>st</sup> June, all sites are open daily from 8am to 5:50pm with the following exceptions:

**Llanfoist: Closed on Wednesdays**

**Five Lanes: Closed on Thursdays**

**Mitchel Troy: Closed on Mondays and Thursdays**

**Usk: Closed on Tuesdays and Fridays**

These initiatives have been introduced to reduce costs but also with the aim of improving waiting times at the site.

We realise that the temporary closures for skip compaction and swap overs can cause a major inconvenience to our public. We are hoping that these changes will help to improve the situation as:

- The introduction of permits will reduce site traffic (with non-residents being denied access).
- On the closed days, skips can be emptied ready for the next day with no disruption to the public.
- This should reduce the temporary closures for bin compaction/swap, over the subsequent days.
- Mondays and Thursday were chosen as these were the days with the most temporary closures and were agreed through consultation with residents.

The number of temporary closures will be monitored and we will continue to investigate other solutions.
