

# **THROUGHOUT TINTERN**

That's what your Community Council is working towards and, with your help, we'll get it.  
But that's only part of the story:

## **WE NEED TINTERN TO BE SAFE**

and to achieve this we need to put other things in place with the help  
of Gwent Police, Monmouthshire County Council Highways  
Department and, of course, you

**TEXTURED ROAD SURFACES AT ALL ENTRANCES TO THE VILLAGE**  
to alert drivers that there is a change in driving conditions

**REPLACEMENT OF THE SPEED INDICATING DEVICES**  
Yes, we have these, but they haven't worked for many years  
so some villagers don't even know they are there

**CUTTING BACK FOLIAGE OVERHANGING THE PEDESTRIAN PATHWAYS**  
to avoid the necessity of pedestrians, including the elderly and  
children, walking in what can be a very busy road with blind sections

This will, of course take a lot of effort, negotiation and time  
but we know that together we can

## **MAKE TINTERN SAFER FOR EVERYONE**
